The tale of Alilo Cool Bunny

01

Cool Bunny is a cool bunny. He is a part of the alilo family. He is an amazing singer and a great story teller.

He was playing outside one day when he thought
"It's so nice out, I should have a concert." So he immediately went off to find all of his closest friends.

02

Hippity hopping through the woods here comes Cool Bunny with his ears up high. Just smelling the flowers and singing songs when SUDDENLY he hears a noise behind a tree...

"Ta... Ta... Ta..."

What could it be? Cool Bunny bravely looks 'round the tree. What a surprise his eyes did see. It was his grizzly friend Bernal eating from his pot of honey.

"Ta, Ta, Ta" Bernal Bear grins scooping out a fist full of honey. Cool Bunny with a wink invited Bernal to join him in the concert he's performing at later that evening. And with a nod and a 'tap' to the bottom end of his now empty honey pot, Bernal, with a grin and a dribble of honey exclaimed "YEAHHHH!"

"Alright, see ya tonight" , Cool Bunny smiles and hops away.

Cool Bunny leaps and lands at Marshall Dig's farm.

"Hello Marshall", Cool Bunny says. "Would you like to perform with me at my concert tonight?"

Sure, I'll stop by after work", Marshall says while taking an axe to a log.
"This stump would make a nice drum!"

Cool Bunny then high fives Marshall for his great idea and says, "Bring the drum by after later!" Then he hops away.

Cool Bunny hops on his scooter and scoots to the pond when he hears...

"I be on my Suit and Tie, Suit and Tie, Suit and tie", Fabiana Frog sings. Fabiana is special frog.

"Hi Fabiana, how's it going? Will you come to my concert tonight?" Cool Bunny asks.

"Yes, I will come, but I have to take my brothers and sisters for a walk first ", Fabiana responds and blows her flute. The flute is made from bamboo.

"No problem, I have to pick up a friend anyway", Cool Bunny replies and continues on his way.

To get to the city, Cool Bunny used all his strength to ride the rainbow.

"The city is totally strange, but so COOOL", says Cool Bunny.

There is Mia wearing her hair in two buns.

"Hi Mia, nice to see you again, would you like to come with me to my concert tonight?", Cool Bunny asks.

"Of course, let's go!", Mia answers.

That night, the whole gang came to sing, dance, and play. Unfortunately, they forgot to invite guests. It's ok. The important things is that the five friends had fun.

Welcome to the Alilo Family!

Hi! I am Cool Bunny, the most amazing little Bluetooth Digital Media Player for Kids. You can connect me to your smartphone via Bluetooth, and play content from your smartphone to your little one. You can also dry erase any design you would like on my indestructible body. I have touch-sensitive control for my ears, you can high five me to turn on / off my light up ears. I automatically go to sleep after playing for 30 minutes without use and you can press any button to wake me up. To turn on or off my default sleep mode you can press " Music () " button for 2 seconds. I can do everything else my family can do. You can safely chew my soft ears, I can record your voice, read you bedtime stories, sing you songs, my ears glow gently when you need a friendly night-light, and my soothing sound can calm your little one. My buttons are very easy to use. I'm strong because I'm made from drop-resistant ABS plastic. Which is 30 times tougher than ordinary plastic!

About Me

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Includes:

- Alilo Cool Bunny (V8 Bluetooth)
- USB Cable
- Built-in Micros SD Card
- Built-in Rechargeable high-capacity lithium polymer battery
- Manual
